Reference:-

It is brought to the notice of the Board by the District Prohibition Officer, South Kanara, that the habitual distillers living on the banks of Mangalore back waters and Kalyanpur river have been for a long time using small boats during night hours for distilling liquors and for selling them in Mangalore and Udipi Towns. It is also reported that a meeting of the District Prohibition Advisory Committee was held on 3.1.1949 at the Huzur office, Mangalore and it was resolved that the experiment of stationing Government boats for patrol work in above rivers might be tried for checking transport of liquor during night time. Hence the District Prohibition Officer, South Kanara, requests that sanction may be accorded for the purchase of two small boats at a cost not exceeding Rs.400/- each for patrol work.

In the interest of successful enforcement of Prohibition, in that district, the Board considers that it is highly essential to have two boats for patrol work during nights and requests

P T /

requests that the Government may be pleased to accord sanction for the purchase of two small boats at a cost not exceeding Rs.400/- each.

The Government in their Order cited have sanctioned the purchase of two boats and the employment of 4 boatmen in South Kanara District for detection work in Mangalore back waters and Kalyanpur river. The District Prohibition Officer, South Kanara, now reports that assaults on Prohibition staff on these parts are becoming too frequent and the question of purchasing the boats may be kept in abeyance till the uniforms and muskets are supplied to our men as it will not be safe to allow the staff to patrol the back waters and the river in boats especially during night time unarmed and entirely left to the mercy of the boatmen who will after all be recruited only from the local boatmen. It is also reported that no ready made new boats are available at present. In the above circumstances, the Board agrees with the views of the District Prohibition Officer and submits that the sanction accorded in the Government Order cited has not been utilised at present and the purchase of the boats has been kept in abeyance.

Rohibition – Enforcement of [redacted] – purchase of two boats – Board's proposal.

From the Bd. of Rev. (Spec.) CR 3716 dtd. 16/6 & D3 dt. 8.3.49

Please see the Boards Paper in the CF. for the reasons stated therein, the Board requests that sanction may be accorded for the purchase of two small boats at a cost not exceeding Rs 400/- each for patrol work in the Mangalore back waters and Kalyanpur river. In this connection attention is ~~solicited to the orders in~~ invited to G.O. No. M. 2068 Rev. dt 31.8.48 and also to ~~the notes at pp 4 to 5 ng of~~ G.O. No. 2068 Rev. dt. 31.8.48 at page 4 (1) ~~At that analogy, it is for consideration whether the Board's proposal at A in the CF will be treated as not essential and the Board informed accordingly. Orders~~ also the notes at pp 4-5 ng of G.O. No. 2068 Rev of 31.8.48 where a proposal to sanction a motor launch for the use of the Prohibition Staff in the Stanley Reservoir Matter, was rejected by the Govt. because the illicit distillers would be able to hear the motor launch approach & thus get warning and also because of the danger that the launch would be misused for pleasure trips. In the present case the Board has asked for only two small boats at a cost of Rs 400 each. As they will not have engines, there is no danger of illicit distillers getting warning as stated at x above. Presumably no special staff is required to maintain the boats. Orders whether the Board's proposal

TO AS

Please see the Board's reply at p 6 CF. The file deals with the proposal of the Board of Rev to purchase two small boats at a cost not exceeding Rs 1000 each for patrol work in the Mangalore back-waters and Kalyanpur river. In C.O. No. 2068 Rev. D 31.8.48 — a proposal to sanction a motor launch for the use of the Prohibition staff in the Stanley Reservoir, Metturu, was rejected the reason being that the illicit distillers

would be able to hear the motorlaunch approach and thus get warning and also that the launch would likely be misused for pleasure trips. In the present case the Boar has asked only for two small boats not driven by engines. The Board, in reply to a Memo. from the Government, has stated that two boatmen are required for each boat so that they may be on duty by turn, day and night. The pay of a river is Rs.45 plus dearness allowance of Rs.22 per mensem nd the pay of a syrang is Rs.16 plus dearness allowance o Rs.18 per mensem, ~~respectively~~. The Board has suggested th **the boatmen may be paid at the same rates. The Board has not stated whether the boatmen are to be paid the scale admissible to drivers or the scale admissible to syrangs. It may be asked. A draft T.M. is submitted.**

To H.S.

Please see the Bd's reply at p. 8 CF
The Board has stated that a staff of one driver and one syrang is required for each boat and recommends that the two drivers and two syrangs may be paid at Rs 45+22 (DA) each p.m. and Rs 16+18 (DA) each p.m. respectively. The establishment charges work out to Rs. 2,424/- per annum apart from the initial cost of the two boats viz. Rs 800/- It is for consideration whether sanction may be accorded for the purchase of two boats and also for employing the above staff recommended by the Board. If so the file may be sent to Dy. Sec. and Fin. ~~and Pay~~ for remarks before circul

In his recent inspection notes the Commissioner of Prohibition has brought to ~~notice~~ notice the existence of illicit distillation & illicit sale of liquor in the S. Kanara Dt.

He has stated that there is a keen traffic in liquor carried on in country boats. In the circumstances, the DS proposed to procure two small boats for detection work. may be accepted

Z. 29.7.49 DS

The recent report from the Commissioner of Prohibition on the enforcement work in Mangalore and S. Kanara dt. makes very interesting reading. The Commissioner states in unmistakable language that there is wholesale violation of the Prohibit Act in the district and that a fair proportion of the upper and middle classes are not only indifferent but totally opposed to prohibition. I do not think the problem can be tackled successfully by a mere increase in the prohibition staff or by a couple of patrol boats. Already the expenditure on enforcement staff and equipment bears a disproportionately high proportion to the total establishment bill of the Govt. I wonder whether it is any use incurring extra expenditure when we are by no means certain of its making an appreciable difference to the success of enforcement.

I respectfully submit that there is not likely to make any material difference in the matter of enforcement of prohibition, and in the present financial position we cannot afford to incur more expenditure than we are

doing on prohibition, this dept is particularly opposed to the increase in recurring expenditure. The possibility of working the boats with the existing prohibition staff in the district may be examined.

Please see Finance notes at p. 8 ante.

2. The file relates to the proposal of the Board of Revenue to purchase two small boats at a cost not exceeding Rs.400 each and to employ 2 drivers on Rs.45 each per mensem and 2 syrangs on Rs.16 each p.m. for patrol work in the Mangalore back-waters and Kalyanpur river in connection with the enforcement of Prohibition. H.M. (Prohibition) is for accepting the Board's proposal if it is not possible to suggest an alternative method of checking illicit distillation in the area. On the suggestion of the Finance Secretary, the Board was asked to state whether it was not possible to man the boats with the existing Prohibition staff. The Board has expressed inability as there should be a special trained staff to man the boats. Finance have however remarked that the expenditure proposed on the boats and the staff seems unnecessary at this juncture. This Department may however press for the acceptance of the proposal in view of 'A' above May be circulated to H.M. (Prohibition) and H.M. (Finance) for orders whether the draft order below may issue.

Why is it necessary to have drivers for the boats, when it is not proposed to have motor boats, but only rowing boats?
